

## MILK TESTS OF LOCAL SUPPLY

Milk tests now being made by City Purchasing Agent Hoyt show that Ogden is getting a very good grade of the lactical fluid from the local dealers. Samples of milk are being taken from the various delivery wagons and depots and are being put to specific gravity tests at the city hall to determine whether or not the dealers are adulterating the fluid. The samples are taken at random so that there is no chance for any dealer to have only special bottles of his goods examined.

The normal specific gravity of milk ranges from 29 to 34 and any sample that should step over these dead lines would cause trouble to the dealer. Milk at either 29 or 34 is under suspicion in the eyes of a chemist, 32 being the average specific gravity. According to the pure food laws milk must contain 3.25 per cent fat. Of all the local testing only one sample was of a suspicious nature. This showed a specific gravity of 34.60-100 and it will be investigated by the city purchasing department and an analysis of the sample secured from the state chemist.

The following table shows the specific gravities of the samples taken from the various dealers:

Ogden, Utah, Aug. 26th, 1910.  
Hon. Wm. Glasman, mayor, City.  
Dear Sir—Hereby, I herewith report showing the Lactometer tests of milk samples, as taken by me during the past week.

Dealers. Specific Gravity.  
Madson & Irving ..... 31  
A. D. Garner ..... 30 & 31  
Norton & Critchlow, Vine-  
yard Dairy, Wagon No. 2, 32  
Norton & Critchlow, Vine-  
yard Dairy, Wagon No. 3, 32  
L. L. Corey ..... 31 & 32  
Amidon ..... 32  
Linford Bros. .... 31  
J. S. Hunter ..... 30 & 31  
P. Hall ..... 30 & 31  
C. A. Shaw ..... 31  
J. McGrath ..... 30  
Mary Voss ..... 30  
Bingham & Powell ..... 31

Tests made so far show the milk to be normal, and except in a few cases as regards the temperature to be within the requirements of the law. Milk is normal when the Lactometer reading is between 29 and 34. If you desire any further information kindly let me know.  
Respectfully,  
(Signed) WALTER J. HOYT,  
Inspector of Provisions.

## MOOSE MAY BUILD A HOME

At a meeting of the local order of Moose Friday night forty-two members were initiated. This makes the membership of the lodge about 500 and the members state that it will be 1,000 before the year is over.

The order is now contemplating the erection of a home, and, to this end, a committee has been appointed to secure options on suitable sites. If they decide to build they will construct a modern building and make it one of the most beautiful lodge quarters in the city.

In case they do not build, it is said, that they will likely lease the upper floor of the building to be erected by J. T. Hurst, on Hudson avenue. It is claimed that the entire structure of the old skating rink, owned by Mr. Hurst and others, will be torn down and an entirely new building erected, with the east end fronting Hudson avenue and the west end Grant avenue. The foundation of the rink building is heavy enough for a modern structure, such as Mr. Hurst has in mind. The building will not be less than two stories high and it will be made to comply with all the requirements of a modern business block. If the building is made three stories high it is probable that the third floor will be occupied by the Moose, if they do not erect a building of their own.

## NEW JUDGE IN KURTZ CASE

Judge Howell held court at Farmington yesterday afternoon. He occupied there until next Saturday, when the local motion and probate calendar will be taken up and disposed of. The court is about two weeks behind the regular calendar arrangements for the hearing of cases, due to the fact that it has taken more time in the trial of some cases than was anticipated.

The order of the calendar at present is as follows:  
September 6—Jepperson vs. Oregon Short Line.  
September 7—Stewart vs. Oregon Short Line.  
September 8—Utah Stationery company vs. Missouri Pacific Railway company.  
September 9—Mangum vs. Potter.  
September 10—Eccles Lumber company vs. Sylvan Park Amusement company.

Under an agreement of the parties concerned in the case of J. H. Kurtz vs. B. M. Remson and the Pingree National bank, Friday evening Judge Howell ordered that the case be certified to Judge Joshua Greenwood of the Sixth Judicial district. Judge Greenwood was communicated with by telephone and it was learned that

## S.S.S. FOR SUMMER SKIN DISEASES

Smooth, healthy skins are a rarity in summer. Most persons are annoyed with pimples, boils, rashes or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. All skin affections come from humors and acids in the circulation. The blood, as it circulates through the system, deposits these acids and humors in the sensitive membranous flesh which lies just beneath the outer skin or tissue covering the body. This acid matter causes inflammation and a discharge which breaks through the delicate cuticle, and skin diseases are the result. To cure any skin-trouble the blood must be freed from all acids and humors, and for this purpose nothing equals S.S.S. This great blood purifier goes down into the circulation and completely removes every particle of impurity, enriches the blood and in the blood allows it to nourish, soothe, and cure the skin instead of irritating it with dry acids and humors. Book on Skin Diseases and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

he could not be here to hear the parties regarding a restraining order recently made by Judge Howell until Monday morning. The case will be taken up at that time.

In the divorce case of Jacob Wangsgaard against Josephine Wangsgaard, in which a decree of divorce was granted the defendant, which directed that the plaintiff pay \$20 a month alimony and \$50 attorney fees, the defendant has complained that the plaintiff has failed to comply with the order. It has been directed by the court that Wangsgaard be taken to court to show cause why he should not be punished for contempt.

Ida M. Bucher has petitioned to the district court to be appointed guardian over her minor children, Helen, Albert and Grace Bucher, and her granddaughter, Mabel Bucher. Mrs. Bucher states that her children have an interest in the estate of Joseph Stephens, deceased, of Dayton, Ohio, valued at \$75, and she claims that it needs the attention of a mature mind.

## TIME TABLE CHANGES SUNDAY

The new Harriman schedule will be issued today and will show a number of changes in the time of arrival and departure of trains at the Ogden depot. Besides the cutting of fifteen minutes from the schedule of the Ogden-Salt Lake trains, the notable will show a minor clipping of time from other runs.

Number 23 leaves Salt Lake City at 8:45 a. m., will arrive in Ogden at 9:30.

Number 7, Los Angeles Limited, east bound, will arrive in Ogden over the Southern Pacific at 12:50 p. m., and leave over the Union Pacific at 1:05 p. m.  
Number 19 leaves Salt Lake City at 6 p. m. and arrives in Ogden at 6:45 p. m.  
Number 32 leaves Ogden at 8:30 p. m. and arrives in Salt Lake City at 9:15 p. m.  
Number 34 leaves Ogden for Salt Lake City at 11:35.

Number 20 leaves Ogden at 5:45 p. m. and arrives in Salt Lake City at 6:30 p. m.  
Number 38 leaves Ogden for Salt Lake City at 6:15.

Number 2 arrives in Ogden from the north at 6:25 a. m.  
Number 4 arrives in Ogden at 3:44 p. m.  
Ten minutes is cut off of the schedule of the two last named trains.  
The running of trains from Ogden to Salt Lake City in 45 minutes means maintaining a speed of 48 miles per hour. According to railroad officials, the fastest time ever made by a passenger train from this city to Salt Lake is 34 minutes. This record was made by a special train a few years ago when Vice-President Calvin was speeding from Los Angeles to Salt Lake City because of the illness of his daughter, who had undergone an operation in a Salt Lake hospital.

## FOUND \$200 AND OWNER

There was money flying all round yesterday near the corner of Twenty-fourth street and Washington avenue, and W. B. Sanders of the Utah Stationery company, picked up \$200 of it, immediately notifying the Standard office that the owner could recover the same by making the proper identification.

The money was found partially tied in a white cotton handkerchief. Some of the bills, however, had slipped from the handkerchief knot and were blowing about the sidewalk when Mr. Sanders came along. The money was found at 9:30 and before the noon hour an Austrian, Jack Volec, claimed it and the money has been turned over to the police department to be given to the man as soon as he makes proof of ownership.

The roll was in currency bills of \$5 and \$10 denominations, they and the wrapper, a white handkerchief, being fully identified by the Austrian. He stated that he had just drawn the money from the bank and supposed it was safely in his pocket, just before he reached the stationery store, but evidently he had missed placing it in his pocket and it fell to the pavement.

## ASKS FOR RELEASE OF A PRISONER

An attempt was made yesterday to secure the release of Charles J. Van Herbert, now locked in the county jail to await trial in the municipal court on a charge of embezzlement. The attorney argued that the young man has already served a sentence for the crime of petit larceny, and that the present action against the prisoner is for the same offense.

Van Herbert, on April 27, stole a ring from C. R. Woolley and later pawned the jewelry with C. H. Smith. Van Herbert was arrested for the theft of the ring from Woolley and sentenced to sixty days in jail. Just before the young man's term expired, Smith secured a warrant charging him with obtaining money under false pretenses.

Judge Murphy has taken the case under consideration and will render his decision later.

## INCREASE IN FREIGHT RATES

A statement was issued Friday by the Salt Lake Commercial club traffic bureau containing a petition which is reported as having been sent out by A. F. Brewer, superintendent of the Utah division of the Oregon Short Line, and intended to be signed by the shopmen, engineers and firemen in favor of an increase in freight rates. The argument set forth in the petition is to the effect that it requires more to operate and maintain railroads today than it did years ago, and the public wishes better service now than it did a time back and should, therefore, be willing to pay for it.

Accompanying the petition is a statement of the gross and net earnings of the Utah Pacific, the Southern Pacific and the Denver & Rio Grande railroads for the years 1909 and 1910 and the increase as sworn to by the Interstate Commerce Commission. Using this to base an argument on the traffic bureau contends that the rates should be reduced instead of increased. The statement in full follows:

Brewer's Letter.  
Oregon Short Line Railroad Company.  
Salt Lake City, Aug. 8, 1910.  
Petition for increase in freight rates.

Messrs. J. H. Race, O. Alm and N. C. Price.  
Gentlemen—I attach hereto sheets of blank petitions to enable you to secure the signature of shop men, all engineers and firemen who are willing to subscribe their names in support of securing an increase in the freight rates, which, under present conditions, we consider justifiable.

It is requested that all employees of common carriers sign this petition, it being fully understood, however, that there is no compulsion in the matter; it is to be purely voluntary. If any of the men have objections to signing it will be desirable to secure their reasons therefor, merely as a matter of information. As this information is required between now and August 25, wish you would act promptly in the matter, endeavor to obtain twenty-five signatures on each petition so that no additional sheets will be required, and I also wish you would keep the sheets as clean as possible. Extra sheets will be furnished on application.

Yours truly,  
(Signed) A. F. BREWER,  
Superintendent.

The Petition.  
As citizens of this country, we believe in fair profits and good wages. As railroad employees, we know that our prosperity is inseparably associated with the prosperity of the railroad.

We support the railroads in their efforts to secure a higher rate for the transportation they furnish. It costs more now in labor, material, taxes, etc., to operate the railroads than it ever did before. The public demands faster time, greater safety, more accommodations, better equipment and better service. All this calls for better brains in management and greater efficiency on the part of the employees. The public ought to be willing to pay for them.

Increased rates for transportation will assure the regularity of employment and the stability of our earnings, and in all fairness this is due us as well as the roads. We urge all who have to do with the rate question—whether the Interstate Commerce Commission, state railway or public service commissions, national and state legislators—to deal fairly with this vital question. We believe in reasonable regulation and efficient laws, state and national, for that purpose. We believe that just and reasonable regulation requires frank recognition of existing conditions, and that the railroads must have reasonable increases in their rates in order to respond efficiently to the demands made upon them by the public. The fund from which our wages are paid cannot be considered better equipped out of our own pockets. We know, too, that transportation rates have had nothing to do with the increased cost of living.

As employees of the Oregon Short Line Railroad company, we affirm our signatures here below as in harmony with the above declaration and authorize their presentation to the Interstate Commerce Commission, state railroad commissions or to any official, federal or state, who has anything to do with the railway rate making or railroad regulation.

Statement of Earnings.  
Gross and net earnings of the following railroads for the fiscal years ending June 30, under the sworn statement to the Interstate Commerce Commission.

System	Gross	Net	
1910	\$88,506,464	\$43,373,782	
1909	77,369,423	40,857,352	
Increase	\$11,136,041	\$2,516,430	
Southern Pacific (Pacific System)	1910	\$95,189,004	\$42,560,574
1909	81,402,177	35,522,225	
Increase	\$13,786,827	\$7,038,349	
Denver & Rio Grande System	1910	\$25,529,436	\$7,035,249
1909	20,876,571	6,429,997	
Increase	\$4,652,865	\$1,335,452	

Under the above statement of earnings it is difficult to see wherein any rate advance is necessary, but it would very clearly appear that a "revision of rates downward" would be far more appropriate.

COMMERCIAL CLUB TRAFFIC BUREAU.  
Salt Lake City, Utah, Aug. 26, 1910.

## BASEBALL GAME ON TODAY

Salt Lake again today in place of the Occidentals is a change in the baseball schedule that is believed will meet with the approval of Ogden fans. It is likely that Red Toner will be on the mound tomorrow with Helme at the receiving end of the firing line. The combination worked so well last Sunday that it is expected they will have no trouble in making good to-morrow. The steam shoveler has been massaging his limbs with cylinder oil and will be more flexible than in his former exhibition. Helme's hay rake mits did not let anything get by him and the fans liked his work, the only objection being the squeak of his hinges annoyed the ladies. The new man has been working out since last Sunday and is said to bend very easily now.

## Monday Opens Our First Annual Sale of Blankets

Would you consider selecting---not buying---merely selecting your blankets now if the saving could be one dollar in five? Monday we start a sale that makes this possible--you select from our new stock, make a small deposit and have the blankets laid away until the day you need them.

The stock is new and clean, consists of all grades and the prices are cheaper now than they will be at any other time of the year.

10-4 Sheet Blanket, Grey, Tan with pink and blue border, 60c value. **48c**  
10-4 Sheet Blanket, an extra good quality, colored borders **79c**  
11-4 Heavy Cotton Blanket, 125c quality, all colors. **98c**

12-4 Extra Large Size, \$2.25 value, all colors. **1.79**  
12-4 Large Size, White, Grey and Natural, \$2.25 value. **1.59**  
11-4 Good Heavy Blanket with bound edges, \$2.50 value. **1.98**

11-4 Blanket in a variety of attractive plaids, \$3.00 value. **2.39**  
Our \$5.00 Blanket, dainty plaids, tans, blue, pinks. **3.98**  
11-4 \$5.75 value, mottled wool bound with strong taffeta ribbon. **4.59**

### SHOE SPECIAL

You can always buy better shoes at this store for a little less money.

Men's Walk-Over Shoes, patent or calf, \$4 values. **3.58**  
W. L. Douglas Shoes, kid or calf, \$3.50 values, Blucher Styles. **2.98**  
Men's Patent Leather Buttoned Oxfords, \$3.50 values. **2.45**  
Boys' School Shoes, sizes 9 to 12, \$2.25 values for. **1.55**

12-4 extra large Wool Blanket, bound and stitched, \$3.75 value. **2.98**  
An extra Large Wool Mixed Blanket, all colors, \$3.50 value. **2.79**  
Our \$6.50 Wool Blanket—beautiful material—bound edges, colored borders. **5.19**

### The Ribbon Sale 25c values to 50c ... 25c

Perhaps you have seen them in the Washington Window. Five inches wide—all pure silk—plaids, checks, Dresden effects and bright, new, pleasing colors—indeed, there are none in the lot that are not actually worth 50c—Monday and as long as they last we offer the lot at 25c a yard.

### A New, Extreme Long Corset, \$1.50 value ... 89c

A Corset Item which should make business active in this department Monday—One of the new Fall Corsets—the exact model demanded by the new fashions—all sizes are here. The skirt is extra long and soft—it has a medium low bust with the draw-string—the material is strong coutile and the filling is rust proof—limiting the sale one pair to each customer we offer this \$1.50 corset for 89c.

## Wrights' A Good Place To Trade

### IN THE CHURCHES

Church of the Good Shepherd—(Episcopal), northeast corner 24th street and Grant Ave. Wm. W. Fleetwood, rector. Services for the 14th Sunday after Trinity. Holy communion 7:30 a. m. Sunday school 9:45 a. m. Morning prayer and sermon 11:30 a. m. All are welcome.

First Presbyterian Church—At the First Presbyterian church there will be no preaching services on Sunday. The Sunday school will open promptly at 10 o'clock a. m.

First Church of Christ, Scientist—Holds service at 11 a. m. in the new Masonic Temple, Washington Avenue, between Twenty-fifth and Twenty-sixth streets. Subject, "Christ Jesus." Sunday school at 9:45 a. m. Wednesday evening testimonial meetings are held at 8 p. m. The public is cordially invited to attend these services. Free reading rooms are open daily, except Sundays and holidays, from 2 to 5 p. m. First National Bank Bldg.

### MOVING THE DIVISION OFFICES

The long-talked-of movement of the Union Pacific division offices from this city to Green River, Wyo., will take place about October 1, according

to a statement given out yesterday by Superintendent W. M. Jeffers.

The new Harriman station being constructed at Green River is now nearing completion, and it is said that the office rooms, which are to be situated on the second floor, will be more convenient than the ones in Ogden. Despite this fact, there is a great deal of reluctance on the part of the employees to make the change. The prospect of living in a town of less than a thousand inhabitants is not a pleasing one to the office force.

The railroad company is making the change because it is claimed to be a more desirable location in regard to the division, the town being in the center of the division, while Ogden is at the end. Some of the employees, offering their personal objections to moving from this city to the Wyoming village, state that there are but two seasons of the year at Green River—August and winter. They also say that the only places of amusement in the town are a brewery and a moving picture show.

### FUNERAL FOR LATE F. P. HUTCHINGS

The funeral services over the body of the late Frank Percy Hutchings, who died at the Ogden General hospital, will be held at the Ogden Sixth Ward meeting house Sunday afternoon at 4 o'clock, instead of 2 o'clock as previously announced. The casket will be open at the family residence, 2341 Madison avenue from 9 a. m. until 2 p. m. today. Bishop Henry Gwilliam will conduct the services and the Royal Highlanders will attend the services in a body.

### PLAIN CITY NOTES

Plain City, Aug. 26—A beet growers' meeting was held here last night. It was quite well attended. Field Superintendent Job Pingree and his assistant were present as was Joseph A. West, engineer for the railroad company.

The object of the meeting was to settle upon a place where the beet grown in this district might be loaded upon the cars. Last year the loading was done in the street near the center of town and a great pile of beets was placed upon the public square, but loading beets in the street and piling them upon the square does not meet with the approval of the people of Plain City. They hope that a loading place might be established elsewhere, but they cannot agree among themselves as to where that place shall be. A central location

cannot be found, and the growers in the south end of town are unwilling to locate the station in the north end and the north enders are unwilling to locate it in the south end. For months, almost a year, they have saved on this question. Finally, some weeks ago, they passed it up to the sugar people with authority. The sugar people select a location, but as yet they have failed to satisfy the growers. It is understood that the railroad company refuses to extend its rails to the location apparently favored by the majority of the growers and town people. This location is at the old Gadsden corner near the north end of town.

The meeting last night also failed to agree upon such a place, but agreed to let the sugar people and the railroad people together make such a selection provided their choice is near the center of the best growing district of Plain City. It is claimed does not include Warren and Poplar as heretofore as these places will soon have loading stations of their own. They, therefore, should have no voice in locating Plain City's station. So there you are.

It is time this matter was settled. All recognize this as the loading season is at hand, and some apparatus in the shape of elevated platforms or a dump must be installed.

ALL PROPERTY TO WIFE.  
John McDonald's Estate, Valued at \$36,000, Filed for Probate.

Salt Lake, Aug. 27—John McDonald, the well known pioneer manufacturer of Utah who died a few days ago, left an estate valued at \$36,000 to his wife, Eleanor Amelia McDonald, according to the will filed yesterday with a petition from the widow asking that she be appointed administrator. The will provides that at the death of Mrs. McDonald the estate not previously disposed of be divided equally among the children of the family. These heirs, besides the widow, include Fannie McDonald Mar-

getts, John C. McDonald, Rachel McDonald Margetts, James G. McDonald, Junius C. McDonald, William C. McDonald and Eleanor McDonald Chamberlain.

John McDonald's will was written when he was 79 years old, and the estate includes \$10,000 cash; the family residence in East Fourth South street, between Main and State streets, valued at \$30,000; a lot with a frontage of 25 feet facing east in Main street, between First and Second South streets valued at \$5,000, and a residence in the southeastern part of the city valued at \$5,000. Since the will was made, however, Mr. McDonald bought another residence in East First South street, near Ninth East street, which is worth \$8,000 or \$10,000.

The will was signed June 28, 1909, and witnessed by LeGrand Young and Annie Erickson.

ACUTE OR CHRONIC—WHICH?  
No matter if your kidney trouble is acute or chronic E. C. E. Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried E. C. E. Kidney Remedy and a few bottles effected a complete cure. He says, "It has been of inestimable value to me." Bardon Pharmacy—A. R. McIntyre, Prop.

### YOUNG MAN SHOOT FATHER AND SISTER

New York, Aug. 27—Frank Algier, 18 years old, is held by the New York police to await the result of bullet wounds which he is charged with inflicting upon his father and 15-year-old sister. Both were shot twice. Hospital physicians say the sister will recover, but that the father, a well-to-do hotel proprietor, of Ridge wood, a Brooklyn suburb, cannot live.

According to the police, the boy, who had been ordered from home by his father several days ago, returned last night armed with a revolver. When his father refused to forgive him or take him back, he took the revolver from his pocket, and, standing only a few feet away, fired two shots at his father and two at his sister who had jumped in front of her father to protect him. The boy was finally overpowered by his mother and another sister, who grasped him around the waist and threw him down, holding him until a policeman who had heard the shooting, broke into the room.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

HE WILL PULL WELL  
If you feed him well. We have the grain to sell that will keep your stock in good condition. Let us supply your wants.  
CHAS. F. GROUT,  
352 24th St.
